Introduction

We are well established logistic company in Pakistan with specialization in handling various activities in the domain of import and export, we offer Customs Clearance, Transportation, Freight Forwarding, Domestic Door-to-Door Deliveries and various other Special Logistic Services. As a one-stop solution for freight management and transportation, Pakistan Shipping & Logistics Services is ranked among the leading customs house agents and freight forwarders.

We are committed to provide quality shipping & customs clearance solutions across the entire consignment life-cycle to our customers in Pakistan and abroad. Our operations include Customs Clearance, Transportation, Freight Forwarding, Domestic Door to Door Deliveries and other value-added Services.

Mission Statement

Our sole mission is to optimize our potential by making appropriate use of all available resources, pool of modern management techniques and fulfilling market demands. We have strong faith and belief in Almighty, He would reward honest and diligent endeavor and will bless all those who work for the company. By virtue of above, we believe that Pakistan Shipping & Logistics Services will be a leader of Global Logistics Management in Pakistan.

Ocean Freight Handling

We have professional skills and sufficient knowledge in the consolidation of small quantity cargo and container loading. This expertise combined with our skilled and experienced staff allows us to give each shipment the full attention it requires, and transport client cargo cost-effectively.

Pakistan Shipping & Logistics Services monitors the client's cargo at all times, allowing our professional staff to prepare and complete the necessary documentation in time for the ship's arrival or departure. However, our work does not end with the arrangement of the inland and overseas transportation of freight and issuing the required Bill of Lading. We also provide project shipping and global forwarding services through a network of leading Air-Lines & Shipping companies. We well-understand the shipping needs of Pakistani exporters/importers who require LCL & FCL shipments handling.

Air Freight Handling

We understand that timeliness and punctuality are essential for clients. We fulfill our responsibility of transporting your cargo to the desired destinations safely.

In order to offer clients the most responsive service possible, our Air Cargo specialists maintain close relationships with all airlines operating in Pakistan. Our specialists have many years of experience in the area of air cargo shipments. They are dedicated to using their knowledge to achieve speed, economy, precision and safety.

Door-to-Door Delivery

Door to Door delivery is the most common and convenient way of shipment for the customer. In this case the customer is free of all the arrangement related with the sea freight container shipment. We are in charge of all the process beginning with container loading, delivery to the port, arriving at destination. One of the most important part in the process is storage, consolidation and inland transportation of your cargo, Door to door delivery is most of all convenience and speed of the process. We will provide you with all the export documentation support in every step of the process. It is a complicated and multistage process embracing whole spectrum of tasks like:

- Delivery to the shipper empty container for cargo loading.
- Cargo Insurance.
- All the documentation support needed for the cargo export.
- Intermodal service – rail and truck.
- Container receiving in the port and preparing for shipment.
- Custom clearance at port of destination .
- Container delivery to the final destination.

The range of our service is from small loads to a large industrial equipment. We are confident that having this service will save you a lot of time and money and leave all the “headache” to our team of professionals.

Inland Movements

At Pakistan Shipping & Logistics Services we do our best to transport your goods from their port of origin, across oceans, and to their final port of destination in the fastest, safest, most reliable and economic manner possible. We work tirelessly and through the night if necessary, to ensure that any problems that may arise are dealt with in a logical manner and in line with our clients' requirements. In particular, we have expertise in the handling of perishable goods as well as hazardous cargo, government construction materials, and extra-large cargo exceeding the standard size regulations. Furthermore, we use computer network software to manage bonded shipments, small and large sized truck shipments, containers and shipments. We handle customs clearance at the point of entry, and we use our network of branch and field offices to assume responsibility for your shipment throughout the entire transportation process, including delivery at the final point of destination

Our Network
